PROFESSIONAL SUMMARY

I am a young student looking to enhance my programming skills. I am ready to face a new challenge and I desire to continue my career in this domain, investing in my professional development and implicitly in the company I will be working in. I am an enthusiastic person and I'm eager to learn new things.

EXPERIENCE

July 2022 - September 2022 - Web Developer at Extramus

The internship took place in Italy and I worked on this website https://prenotazioni.negombo.it/. It is a booking service dedicated to making reservation of sunbeds/umbrellas. The resort is in Ischia near Naples. While I was working here I improved my frontend and backend abilities as well as my interpersonal skills. The project was done using PHP.

September 2021–January 2022 - Backend Developer Softex

This was my first job in the field that I'm studying and I had a lot to learn. I worked with a team on a project that involved automating the generaton of insurance policies for a company located in Malta. The project was pretty large and I used PHP and Laravel as a framework.

EDUCATION

Oct 2019 – Present - Faculty of Automation and Computer Science in Cluj-Napoca
Program of study: Automation and Applied Informatics

• Web Page Project
I created a web page that displayed different details about crypto, including their current value. The project was done in Visual Studio Code. For the interface I used HTML, CSS and JavaScript was used for making the connection to a public REST API as well as extracting the data from a REST API call, in the JSON format and displaying the information on the page.

***Sept 2015 – May 2019 - Lyceum of Informatics „Tiberiu Popoviciu" in Cluj-Napoca**, Mathematics and Informatics Specialization*
